

NEVER POLISH YOUR CARAVAN OR MOTORHOME AGAIN....

Wouldn't it be great if you could capture the moment you pick up your new Caravan or Motorhome from the dealer. The paintwork still silky smooth to the touch, and sparkling under the showroom lights; the interior fresh, and all the fabric surfaces spotlessly clean.

CaravanBrite is a complete caravan and motorhome protection system, designed to help keep it in showroom condition inside and out – *for life**

CaravanBrite effectively creates an invisible, almost impenetrable shield in and around your vehicle. CaravanBrite is recommended by this dealer as the superior interior and exterior protection for your Caravan or Motorhome.

KEEP THE LOOK

- Keep that 'straight from the showroom' finish

SAVE TIME AND EFFORT

- No need to polish ever again
- CaravanBrite protected Caravans and Motor Homes are easier and quicker to clean – the dirt and muck simply runs off.

SAVE MONEY

- Protect your investment and increase your vehicle's resale value

PEACE OF MIND

- Derived from the Diamondbrite Car paint and fabric protection process which has been protecting cars for over 30 years.

Jewelultra manufacture a whole range of the highest quality chemicals including, Polishes, Alloy Wheel Cleaners, Upholstery Cleaners and Glass Cleaners.

Please contact your local CaravanBrite dealer or Jewelultra direct for more details.

THE ULTIMATE IN PAINT & FABRIC PROTECTION FOR YOUR CARAVAN OR MOTORHOME

- ◆ Never polish again
- ◆ Maintain that 'Good as New' appearance
- ◆ Increase your Caravan or Motorhome's resale value
- ◆ Lifetime Guarantee on Paint and Fabric

**THE PROTECTIVE
HIGH-GLOSS SKIN**

**GUARANTEED
FOR LIFE**

LIFETIME GUARANTEE* FROM DATE OF APPLICATION ON BOTH NEW AND USED CARAVANS AND MOTORHOMES

* Guaranteed for life means for the time that you own the vehicle.

Phase 1 EXTERIOR PROTECTION

Patented CaravanBrite products are carefully applied to your caravan or motorhome leaving a hard, high gloss protective 'shield' which prevents caustic atmospheric pollutants from contacting the vehicle's paintwork. For a professional finish guaranteed for life*, CaravanBrite can only be applied at authorised Diamondbrite centres and by fully trained technicians.

Once treated with the CaravanBrite process you will never have to polish again. Simply wash down using CaravanBrite Shampoo and Conserver (enough to last at least one year is supplied with the initial application. More can be purchased from your local dealer or direct from Jewelultra).

Once treated the painted surfaces or GRP on your caravan or motorhome will remain glossy and fade and stain resistant for the time that you own the vehicle....guaranteed.

Isn't your bodywork already guaranteed?

The manufacturers paint guarantee on your caravan or motor home is normally very limited. The actual finish of the paint is your responsibility and it is your aftercare which determines its ongoing condition. And here is the problem; even if you regularly and thoroughly clean and polish, it will not prevent attack from our corrosive atmosphere. Even under normal conditions your vehicle will be exposed to pollutants which will progressively erode your paintwork, leaving black streak marks and stains or worse making the colour appear dull or faded. More serious damage is happening on a microscopic level, with the smooth surface of the factory applied finish being attacked leaving it pitted and receptive to dirt. The vicious cycle leads to a rapid degeneration – in months rather than years – and explains why your caravan or motor home becomes harder to wash and clean over time.

PAINT PROTECTION How it works

FIG. 1

Magnified Paint Cross Section reveals pitted pores of the metal.

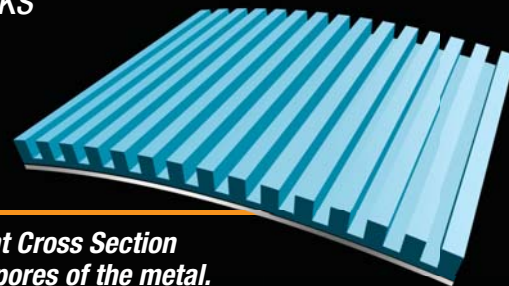

FIG. 2

Road traffic dirt gathers in pores. Nitrates attack outer edges.

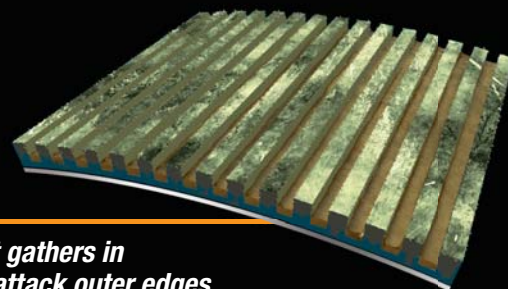

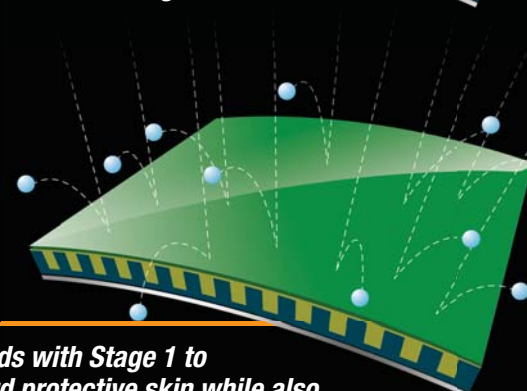

FIG. 3

Stage 1 cleanses and fills pores in vehicle's paintwork leaving a smooth finish.

FIG. 4

Stage 2 bonds with Stage 1 to create a hard protective skin while also leaving a smooth high lustre finish. Rain and dirt now run off easily.

Proven to protect against:

Road grits, salts, traffic film and tar

Acid Rain and other atmospheric pollutants

Tree Saps

Bird Droppings

Temperature Cycles

Insect Fluid

UV Light*

Phase 2 INTERIOR PROTECTION

Fabric Protection

During the CaravanBrite Fabric Protection process each fibre is coated with an invisible resin based material. After treatment your fabric will be guaranteed for life against normal everyday spills and stains. CaravanBrite has been successfully tested with tea, coffee, hot chocolate, alcohol, milk, fruit juices, cola, fizzy drinks, chocolate, confectionery and grease from foodstuffs. All of these were repelled by the treated fabric and either passed straight through the weave or beaded up allowing an easy wipe away.

Carpet Protection

Your carpets are subject to more wear than any other part of the Caravan or Motorhome, and can quickly lose their original appearance, with ground in dirt working down into the pile of the carpet and wearing it out. Simple vacuuming will not bring all the dirt to the surface. CaravanBrite carpet protection seals the base and surface fibre to prevent liquids from soaking into the car's carpet and footwell areas; meaning dirt and grime, including dog hairs, can be easily removed.

Leather

Leather treatment is not part of the guaranteed CaravanBrite process, however CaravanBrite do supply a high quality Leather Feed and Cleaner which preserves leather, keeping it supple and flexible. Provided as an optional extra on both After Care Packs it should be applied at regular intervals to prevent leather from drying and cracking.

FABRIC PROTECTION How it works

Untreated fabric/carpet

Dirt and spillage absorb into untreated fabric leaving stubborn stains and tide marks.

Treated fabric/carpet

No permanent stains. Spills easily removed, dirt vacuumed or wiped away from treated fabric.

LIFETIME GUARANTEE* FROM DATE OF APPLICATION ON BOTH NEW AND USED CARAVANS AND MOTORHOMES

* Guaranteed for life means for the time that you own the vehicle.
